The Perfect Start-Up Kit!

The Installer's Dozen Quick Connect Kit

FiberFuse™ - The Professional Standard

Our FiberFuse™ construction provides a superior rod that is strong and durable with excellent flexibility, shape memory and performance. ***See page 84 for more information about our proprietary FiberFuse™ fiberglass construction process.*** The unique construction is more expensive to make than our competitor's rods, but well worth it. FiberFuse™ rods will not produce the micro splinters of glass fibers that can get into your hands like other rods on the market. All FiberFuse™ rods can be purchased separately in either threaded connectors or quick connect, as single rods or in kits to provide ultimate versatility and value.
