

*12" Multi-Function Hole Cutter*

The new, larger 12" Dual Blade Hole Cutter is adjustable, allowing you to cut holes from 1.9" (48 mm) to 12" (305 mm) in diameter and from .125" (3 mm) to 2" (50 mm) in depth. The DBHC15 comes with both tungsten carbide steel blades and high speed steel blades, both can be sharpened and replaced. The diameter is quickly changed by moving the blade holders with the Hex wrench, included. The red screw knob allows for quick changes of cutting depth. The clear dust shield improves working visibility while collecting shavings for fast clean-up. Comes in a durable storage case. Perfect for canned lighting, speakers and much more!

\*Drill not included
