

## SPECIALTY WIRE RUNNING, PUSHING & PULLING SYSTEMS

# Grabbit™ Fiberglass Telescoping Poles

*If you can touch the wire with the pole, you can GRABBIT!*

The Grabbit series of telescoping poles are constructed of non-conductive, lightweight, friction locking fiberglass. The tool is indispensable for running (pushing or pulling) wires or cables through limited access areas and false ceilings.

The Grabbit is designed for both residential and commercial installations.

Included with each Grabbit is a handy snap-on light accessory for seeing in dimly lit areas. Our patented Z-Tip wire “grabber” tip. The inner “V” of the Z-Tip has a double edge knife designed to literally grab the wire insulation without cutting the actual metal wire, while the outer “V” (without knife edge) is designed to push a wire loop. Also included with each Grabbit is the J-Tip for handling wire loops or fishing tape.

- **GR5** is made of five telescoping sections, reduces to only 14” when compressed and weighs only 5.5 oz. When extended, the GR5 will reach 5 feet.
- **GRMINI** has eight sections, collapses to only 22” and weighs less than 1 pound. When extended, the GRMINI will reach 10 feet.
- **GR12** is made of three sections, is just under 55” when collapsed and weighs less than 3 pounds. When extended, the GR12 will reach 12 feet.
- **GR18** has five sections and when collapsed is less than 58” and weighs less than 5 pounds. When extended, the GR18 will reach 18 feet.

DESCRIPTION	PART NO.	MODEL
Grabbit™ 5 ft Telescoping Pole	LS-82-105	GR5
Grabbit™ Mini, 10 ft Telescoping Pole	LS-82-110	GRMINI
Grabbit™ 12 ft Telescoping Pole	LS-82-112	GR12
Grabbit™ 18 ft Telescoping Pole	LS-82-118	GR18

*The Grabbit poles are great when working in residential attics or crawlspaces when heat, bugs, nails or whatever are present. Limit your time in the space. Simply run your wires and reach out and retrieve them from a distance in a comfortable place. We recommend running all the wires first. You will be amazed at how quickly you can retrieve them using the Grabbit Poles!*
